

Ratchet clutch for FBB Gearbox I

The new SABATEC toothed belt set upgrades your consisting FBB welder. With the weight reduction and the replacement of the conveyor chain, welding speed can be increased, and lubrication is unnecessary. This helps you to keep a clean production without any possible grease leftovers in your production line.

Please check the table below to find the right clutch to your FBB welder. (Only compatible to SABATEC toothed belt wheel sets)

E1FBZR

Toothed belt version to SABATEC Speed Upgrade
